

OXON UNIVERSITIES' REFORM SOCIETY

MICHAELMAS

2026

TERM CARD

Sunday 11 October – Saturday 5 December

WELCOME TO OXFORD REFORM

President's Welcome

Have you ever heard that terrible adage that it is rude to talk about money, politics and religion? The truth is that there is little else worth talking about. Unfortunately, I have found that, in general, conversations in Oxford do avoid those subjects; or if those topics are touched, one usually hears the propaganda from the mainstream media repeated. Even though we are ruled by a rotten class of elites who do not care for the good of the common man, even though the standard of morality is plummeting at an alarming rate and even though the people of this nation are set to be a minority within our lifetimes, there still prevails a profound sense that the world has never been better and so there is no urgency to act.

But if the general scene is bad, what about the particular one? Perhaps there is at least some society that had anything worth saying on these issues; something a little more important than what the exact rate of VAT should be? I was gutted when, as a fresher, I found no political society, or society at all, which I could call a home. They all had values which were liberal and rotten; indeed, any expectation I had left of the Conservatives was broken when I saw that their party logo was set to rainbow background. But now, three years on, there is finally an Oxford student society with a Committee striving towards sound politics.

Included in this termcard are speakers representing a wide array of views on the right. We aren't hosting them because we agree with everything they might have to say, but because for the first time Oxford will have a platform for those conversations previously repressed by our elite or degraded by endless hacks, social climbers, and grifters. To anyone who loves the people of this country, I say: we look forward to meeting you.

"England, bound in with the triumphant sea
Whose rocky shore beats back the envious siege
Of watery Neptune, is now bound in with shame,
With inky blots and rotten parchment bonds:
That England, that was wont to conquer others,
Hath made a shameful conquest of itself."

Legal Migration Panel

A discussion on how we respond to the most fraught issue of contemporary politics

DATE	TIME	VENUE
WED 2 DEC	**5:00 – 7:30 PM**	**VENUE TBC**

About the event

The debate on illegal migration is over. Every single one must be deported. But of the tens of millions of migrants who have entered Britain in recent decades, only a miniscule fraction did so illegally. How, therefore, should we respond to mass legal migration? Over a long-form discussion, our panelists will move beyond 'Stop the Boats' slopulism and offer their thoughts on this grave and urgent issue. Why does legal migration demand decisive action? Who should be deported, and on what grounds? How do we obtain an electoral endorsement for mass deportations? And what are the practicalities of ensuring an effective programme of removals?

The panel

Lucy White *Commentator & policy researcher*

Public policy researcher and commentator who appears regularly on GB News, writing and speaking on immigration and women's safety. She is associated with the Women's Safety Initiative and the White Papers Policy Institute, and has spoken at a Remigration Summit in Portugal.

Additional speakers to be revealed

WEEK 4 · THURSDAY 5 NOVEMBER

The Society will publish, on occasion, student writing on its website, circulated via our social channels. Submissions are by application to the Committee, and approved at our discretion.

We are looking for fresh and incisive commentary to be read by our members, rather than the generic and hackneyed Tory arguments we've all heard before.
